SARAH HELLER
MASTER OF WINE

DESIGN COLLABORATOR

Sarah Heller, Master of Wine and Lucaris Crystal set out on a journey to create a new glassware range. Preferences in wine were highly personal. What is perfect for one person, situation or meal may not be so for another. Wine is also inherently complex, therefore trying to match each glass to each wine created more confusion than harmony.

GRÀN

FROM GRAIN TO GLASS

Drawing inspiration from grain, the base ingredient of whisky, The Gràn Collection represents a unique approach to the whisky tasting glass. Before, one single glass was used for all styles of whisky, an unthinkable approach in other beverage categories. Whisky covers a vast range of aroma and flavour, and The Gràn Collection features four tasting glasses optimized for key distinctions of whisky.

AWARD WINNING COLLECTION

“Tailored To Complement
The Different Styles Of Whisky”

MATTHEW FERGUSSON-STEWART

DESIGN COLLABORATOR

Known as 'Son of Whisky', Matthew is a multi-award-winning whisky brand ambassador, passionate about whisky. He believes that while its most important aspects are organoleptic ones, this cannot be separated from history, production, ingredients, community and ways of consuming. In creating The Gran Collection, Matthew has been inspired by all these aspects. The name 'Gran' itself references the key ingredient of whisky and expresses it in the historical language of Ireland and Scotland, the birthplace of whisky.

DISHWASHER GUIDELINES

Lucaris Crystal Stemware & Barware are commercial dishwasher safe. Proper cleaning and handling will ensure long lasting brilliance, clarity and enhanced natural beverage flavors.

It is always best to put similar-sized glasses together. This will improve stability and prevent abrasion among glasses, thus preventing breakage.

Thoroughly wipe-off residues like lipstick stains, before placing in the dishwasher.

Place glasses in the top rack.

Each rack should be distanced properly according to the height and width of the glasses. This will ensure stability during washing.

We recommend choosing a cycle with minimal heat and “glass friendly” dishwasher to wash the glasses.

Once the cycle has completed fully, open the door to allow the steam to escape and let the glasses cool naturally.

We recommend polishing glasses after removing from the dishwasher to eliminate unwanted water spots. Glasses should still be slightly damp for best results.

CARE RECOMMENDATIONS

1. Wash with warm water. Detergent and glass cleaner should not be used.
2. Leave glasses to drain for a while on a linen towel.
3. Steam glasses over boiling water for superior shine.
4. Use 2 micro-fiber crystal towels for polishing. Hold glass by base to polish the base.
5. Use left hand to cradle the bowl and polish it with your right hand. Never twist the base and bowl as this could lead to breakage.
6. Your hands must always be clean. Keep paper towels within easy reach to encourage cleaning them.
7. Enjoy superb results!
